

Points: individual strains | Large point $\pm$ bar: mean $\pm$ SE | Dashed line: ancestor (fRS585)
Brackets: Welch t-test (Holm-corrected) | Stars to right of mean: vs. ancestor (one-sample t-test)

35 evolved 40 evolved

Points: individual strains (mean across plates) | Large point $\pm$ bar: group mean $\pm$ SE | Dashed line: ancestor level (log₂ ratio = 0)
Brackets: Welch t-test, 40 vs 35 evolved (Holm-corrected) | Stars to right of mean: one-sample t-test vs 0
